

What are the enablers and barriers to scaling-up health promotion and community-based approaches?

Dr. David HOUETO, MD, MSc, PhD

Associate Professor

Health Promotion

University of Parakou, Benin

Health Professionals Education

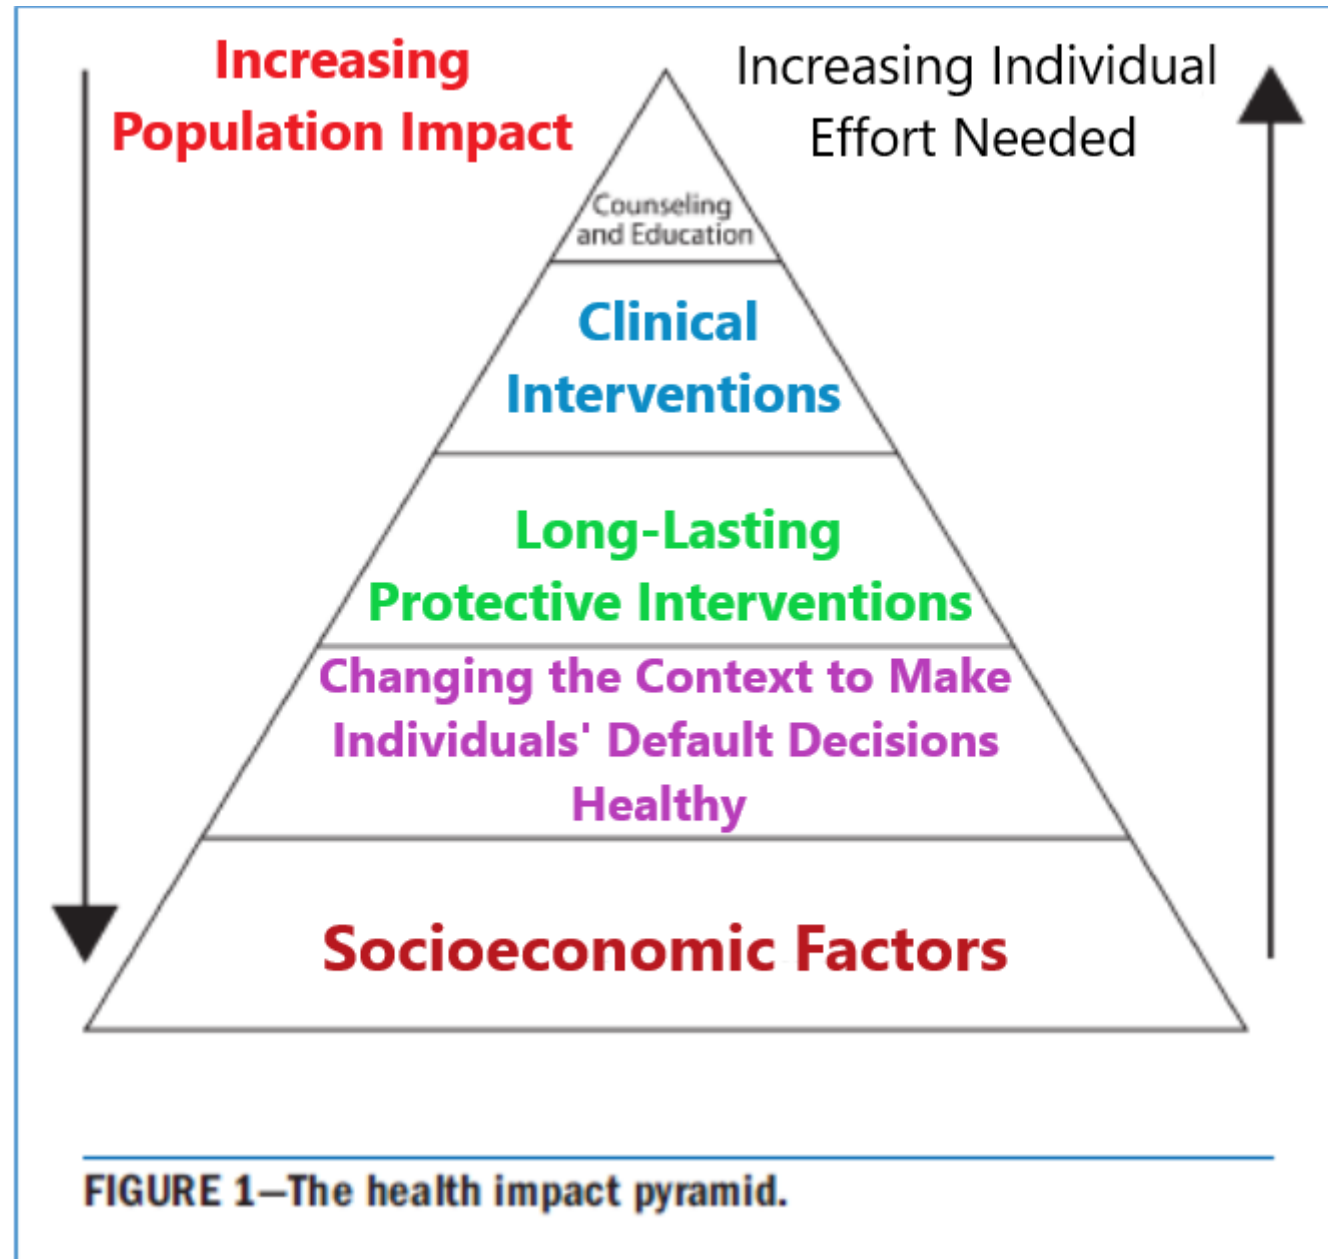

Health Models

- Biomedical model;
- Behavioural model;
- Educational model;
- Client-centred model; and
- Socio-environmental model.

The Current Model of Health Professionals Education

- Biomedical oriented
- Disease oriented
- Diagnosis and Treatment
- Expert oriented
- No need for community participation

The Health Impact Pyramid (Frieden, 2010)

The Health Challenges of the 21st Century

- ...
- Ebola
- COVID-19
- Health consequences of Climate Change
- ...
- That need a pan-societal approach to be well addressed

Hence the need for reform in health professionals Education

- Knowing how to address SDH
- Intersectoral collaboration
- Community engagement
- Reorienting Health System
