

# The future of school health promotion (research)

**Stef Kremers, Professor of Health Promotion**  
Department of Health Promotion  
Maastricht University  
[s.kremers@maastrichtuniversity.nl](mailto:s.kremers@maastrichtuniversity.nl)

# The future of school health promotion?

- Life course perspective
- Contextual approach
- Systemic approach
- Navigating as a central skill for professionals
- Participatory Action Research

# Life course perspective

Super

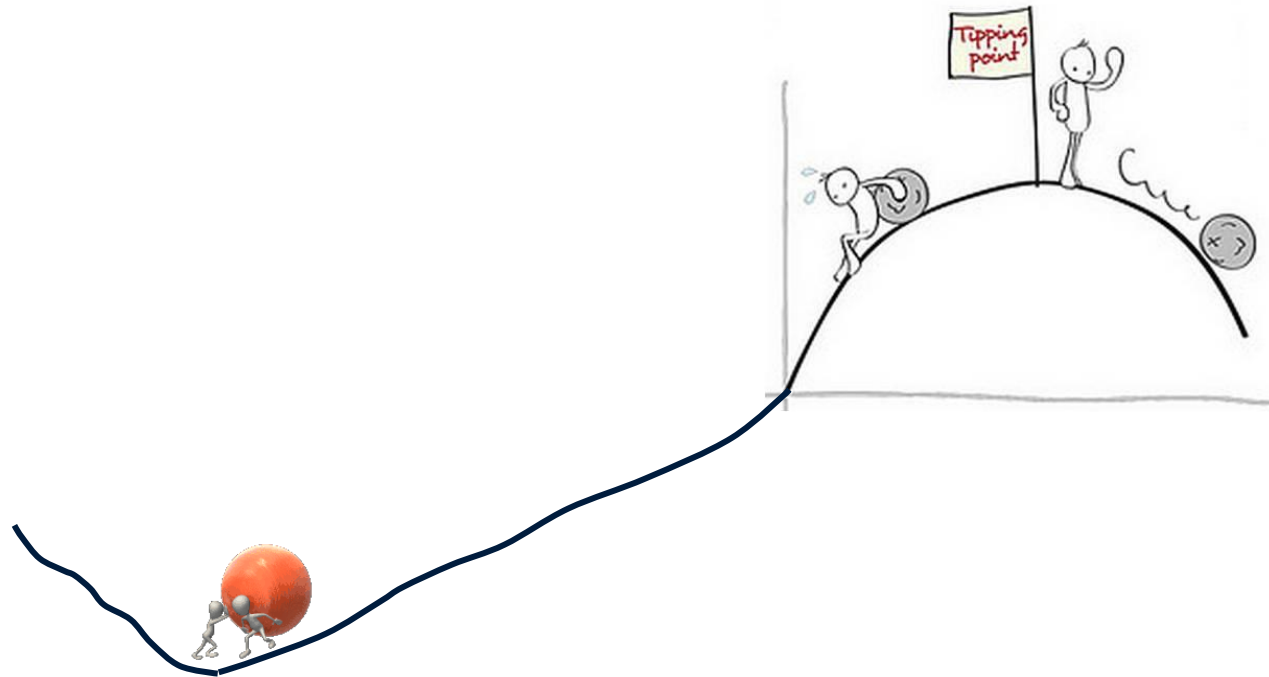

**Healthy  
Universities**

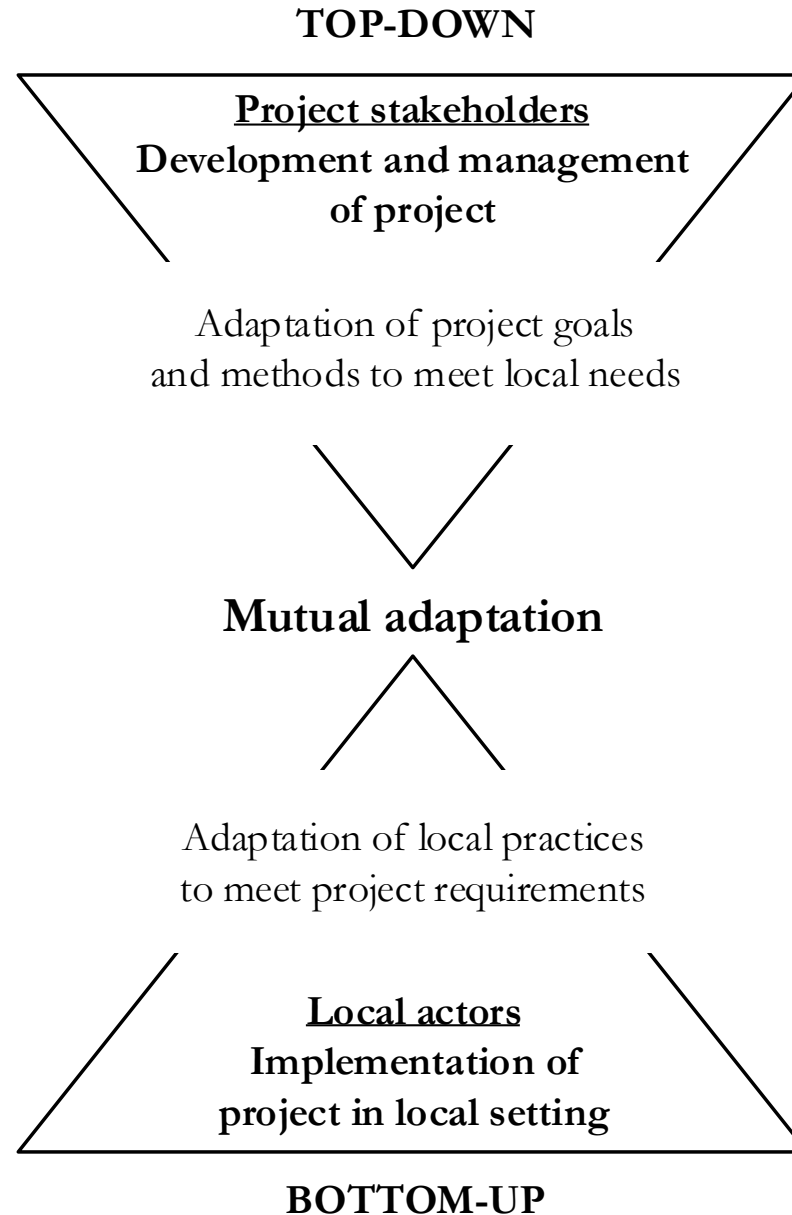

# Contextual approach

- Importance of upstream determinants of successful implementation
- Deep rooted cultural and organisational factors
- The school as part of a broader system

# Systemic approach

- Non-linearity
- Tipping points and attractor state
- Feedback loops

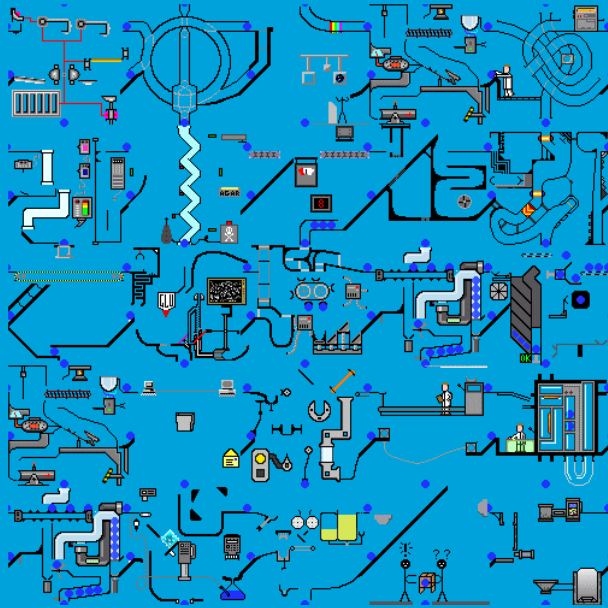

## Navigating as a central skill for professionals

# Participatory Action Research

- Researcher as member of the team
- Create feedback loops
- Research plans without pre-defined output or outcomes

# Thank you!
